## 50 TO 70 MINERS ARE BELIEVED LOST IN MINE

### GAS EXPLOSION IN COAL MINE AT STANFORD, N. C.

HOPE FOR RESCUE ALIVE OF THE MINERS ENTOMBED IS ABANDONED

BODIES OF EIGHT MINERS HAVE BEEN RECOVERED BY RESCUE SQUAD

(By United Press)  
Sanford, N. C., May 28.—Between 50 and 71 miners are believed to have died in the gas explosion at the Carolina Coal Company near here. Hope for rescue alive of any of the miners entombed by the explosion yesterday was abandoned by mine officials today.

Bodies of eight miners have been recovered from the mine by the rescue squad which had penetrated to the 1,800 foot level before stopping work for the night. Recovery of the rest depends upon the arrival of the mine rescue car expected from Thomas, W. Va.

Groups of sorrowing men, women and children hovered about the mouth of the mine until 2 a. m. and then went to their homes, hoping against hope that their loved ones had escaped the deadly gas fumes and would be rescued alive. A score of Red Cross workers and Boy Scouts rendered what assistance they could to the relatives of the entombed miners.

### THREE BIG SUMMER RESORTS PROPOSED FOR MINNESOTA

Minneapolis, May 28.—A representative of a Florida resort corporation soon will arrive in the Twin Cities to discuss the establishment of three \$1,000,000 summer resorts in Northern Minnesota. It has been learned here.

The firm proposing the establishment of the hotels already operates a string of 25 or more high class resorts in Florida and other parts of the country. It was learned. Under the proposed plan, Minnesota capital is to be used for the erection of the resorts, and the Florida company will operate them.

No definite sites have been selected or considered, it was learned, but prospective locations which have been mentioned include one hotel around Lake Vermillion, one on the north shore of Lake Superior, probably near Grand Marais, and a third at the gateway to the Superior national forest, either Ely or Winton. The hotels would be constructed along the lines of the modern Florida resort hotels, the men interested declare.

Several men known to be interested in the project Saturday declined to comment on the matter except to say that it was undecided as yet, but admitted that a representative of the operating company was coming here to discuss the matter.

### OSLO UNIVERSITY CHORUS AT ST. PAUL

St. Paul, May 28.—Members of the University student chorus of Oslo, Norway, will be heard for the first time in this section, at a concert to be conducted tonight at the People's church, here.

The chorus numbers 50 members, 30 of whom are women.

Alf Due, basso, one of the most prominent Norwegian singers today, is included in the list of soloists, accompanying the chorus.

Due was connected with the Berlin Grand Opera for several years and in 1920 he was soloist with the Guldberg Academy chorus of Oslo on the concert tour of Belgium, France and England.

Other soloists with the chorus are Miss Nan Dybdahl and Miss Sophia Schlotz-Schlotz, sopranos and Sverre Lindseth, tenor. The chorus is being directed by Alfred Russ, noted composer and member of the student chorus that visited St. Paul in 1905.

The chorus has a repertoire of 42 songs by English, Norwegian, Swedish, Danish and German composers.

## Rescuers Probably to be Sent After Amundsen

### THREE STILLS SEIZED, 4,000 GALLONS MASH 200 GALLONS LIQUOR

(By United Press)  
St. Paul, May 28.—Police and federal agents late yesterday staged a series of raids and confiscated three stills aggregating 600 gallons capacity, 4,000 gallons of mash and 200 gallons of liquor. Three men were arrested.

### CLAIMS HE HAS MENTALITY OF 10-YEAR BOY

DR. H. A. BURNS FOR GOVERNMENT, SO TESTIFIES REGARDING LOPEZ-FRAZIER

DISCREPANCIES REVEALED, ALLEGED IN ARMY MEASUREMENTS MADE

(By United Press)  
Minneapolis, May 28.—Arthur Lopez-Frazier, alleged by government witnesses to be an imposter seeking war veteran's aid, has the mentality of a ten-year-old boy, a report of medical examiners at Knoxville, la., hospital introduced as evidence in federal district court today.

Dr. H. A. Burns of the Veterans' Bureau and investigator who had charge of the Frazier case, presented the report during his testimony. The report said it was doubtful whether Lopez-Frazier had amnesia as has been claimed and concluded from a number of facts that he was not Arthur Frazier whom the war department's records show was killed in action in France during the world war.

The conclusion, the witness testified, was based principally upon discrepancies in army measurements and finger prints of Arthur Frazier and measurements and finger prints of Arthur Lopez-Frazier. It was also pointed out that Arthur Frazier had the education of a high school junior, while Lopez-Frazier has a ten-year-old mentality.

### FREAKISH WEATHER THE PAST WEEK

(By United Press)  
St. Paul, May 28.—The past week was characterized by very freakish weather which did considerable damage in some sections to buildings, and cold weather further reduced fruit prospects and set back home gardens, but did very little damage to grain," according to the report of Paul H. Kirk, Minnesota agricultural statistician.

"Corn planting is well finished with soil generally in good condition," the weekly report continues. "Warm weather and more rain are needed in nearly every section of the state as subsoil moisture is deficient. "Rye is not making the best of growth. Winter wheat looks fairly good, while potato planting has commenced. Pastures and hay lands need warmer climate, but all classes of livestock are in good condition and the season is favorable for spring pig and lamb crops."

### STEARNS HEARING IS TRANSFERRED TO DES MOINES

(By United Press)  
Sioux City, Ia., May 28.—Action in the case here against Dave Stearns, Sioux City youth who is charged with robbery and attempted murder of an officer at Minneapolis several months ago today had been transferred to Des Moines where a hearing on extradition of Stearns to Minnesota will be held on June 2nd. Stearns was arrested here a few days ago and resisted extradition.

St. Paul, May 28.—Mrs. Leah Jacobs, 106, believed to be the oldest person in St. Paul, died late yesterday at the Jewish home for the aged after a brief illness.

### SOUTH DAKOTA OFFERS TO HOUSE FEDERAL PRISONERS

WILL ASSIST TO RELIEVE CONGESTION AT LEAVENWORTH PENITENTIARY

INSTRUCTIONS FORWARDED TO U. S. ATTORNEYS IN MANY STATES

(By United Press)  
Washington, May 28.—The State of South Dakota is assisting the federal government in relieving congestion of prison conditions, Attorney-General Sargent announced today.

Sargent said South Dakota has volunteered to permit the incarceration of federal prisoners in the state penitentiary at Sioux Falls. Instructions were forwarded to United States attorneys in Minnesota, Montana, North and South Dakota, Wisconsin and Wyoming to discontinue sending white male prisoners to the Leavenworth penitentiary because of overcrowded conditions.

"South Dakota's offer will permit the housing of 75 federal prisoners instead of further crowding Leavenworth," the order to the district attorneys read.

### NUDE BODY OF WOMAN FOUND

HEAD AND FEET MISSING, REMAINS FOUND ON LAKEWOOD BEACH, CLEVELAND

(By United Press)  
Cleveland, May 28.—A nude, unidentified body of a woman with head, hands and feet missing and partially decomposed was found on the beach at Lakewood, a suburb here today. The discovery of the body was made by a gardener cutting the grass on a lawn overlooking the beach. The only clue was a pair of black garters.

It is believed the body was in the water for more than a month and had washed ashore. The woman appeared to be middle aged, about 5 feet tall and stout. Police were unable to find any marks of violence on the body that would indicate the woman had met with foul play.

### MEANS PLEADS GUILTY IN COURT

EUGENE MEANS, OF BISMARCK, SENTENCED TO 4 YEARS IN PENITENTIARY

(By United Press)  
Bismarck, May 28.—Eugene Means, part Indian and a former government clerk on the Standing Rock reservation pleaded guilty today to 35 counts charging embezzlement of \$2,700.

He was sentenced to serve 4 years in the federal penitentiary, but owing to the crowded condition at Leavenworth will serve the time in the South Dakota prison. Means had been in the government employ for 20 years, 8 of which were spent at Standing Rock.

### MASTER PLUMBERS MEET IN ST. CLOUD

(By United Press)  
St. Cloud, Minn., May 28.—Members of the Master Plumber association in the central district are meeting here today in a district rally, aimed to raise the standard of workmanship and acquaint the public with the responsibilities of the trade. Plumbers from Brainerd, Little Falls, Motley, Milaca, Melrose and Paynesville are in attendance.

Officers of the state association are conducting similar meetings throughout the state to carry on the educational program.

### WATER BOILER BURSTS; KILLS, MAIMS IN CAFE

(By United Press)  
Chicago, May 28.—Two negroes were killed and another negro and nine Chinese waiters were injured by an explosion of a water boiler in a Chinese restaurant in the loop today. One of the negroes, a porter, was blown out of the fourth floor of the restaurant into the street, narrowly missing scores of pedestrians who thronged the thoroughfare. The dead negro was hurled up against a wall with tremendous force. None of the others is thought seriously injured.

### \$30,000 IS VERDICT GIVEN, PERSONAL INJURY

RENDERED IN CASE OF LYLE J. POWELL VS. STANDARD OIL CO.

CLAIMS KEROSENE AND GASOLINE MIXED IN KEROSENE CONTAINER

(By United Press)  
Stillwater, Minn., May 28.—The largest personal injury verdict ever rendered in Washington county was rendered after midnight last night by the jury in the Lyle J. Powell suit for \$50,500 damages against the Standard Oil Company of Indiana and the local employees. The verdict rendered was for \$30,000.

Powell was severely burned and injured in an explosion at his farm home near here last winter and alleges the defendants were negligent in delivery of some gasoline and kerosene to his place, mixing gasoline with kerosene in a kerosene container.

### GRUBER OFFERED N. P. POST, REPORT

FORMER GREAT NORTHERN VICE PRESIDENT MAY SUCCEED LATE A. M. BURT

St. Paul, May 28.—Rumors that James M. Gruber, former vice president of the Great Northern, had been offered a high position with the Northern Pacific, were circulated in railroad circles today.

Mr. Gruber is in Montana and is expected to return to St. Paul in a few days.

The position of vice president in charge of operation, made vacant by the death of A. M. Burt, has not yet been filled. Official announcement of the appointment of a new vice president is expected within a few days.

Mr. Gruber is a veteran railroad man, having spent several years with the Great Northern and other lines. After leaving this company following the expiration of the governmental control of railroads, he was made president of the Consolidated Cuban railway.

### VERDICT AGAINST COLLEGE BOARD IS SET ASIDE

(By United Press)  
St. Paul, May 28.—The verdict of a jury in United States district court last December which awarded Paine, Webber & Company \$12,000 in a suit against the Macalester College Board of Trustees, was set aside in an order signed by Judge John B. Sanborn, United States District Judge, yesterday afternoon. The suit involved the purchasing of \$12,000 bonds by Macalester College from the Paine, Webber & Company. Before the brokerage company could cash the treasurer's check on the now defunct Capital Trust & Savings Bank, the bank failed, leaving them without payment.

### McCLINTOCK ESTATE IS OVER MILLION DOLLARS

EMBRACES \$800,000 IN BONDS, \$200,000 IN REAL ESTATE

LIFE INSURANCE POLICIES HAVE A VALUE OF \$97,000

(By United Press)  
Chicago, May 28.—The McClintock estate for which William D. Shepherd is alleged to have murdered his young ward, Billy McClintock, has the valuation of \$1,097,000, according to figures filed in Probate Court here today.

The estate is divided into \$800,000 in bonds, \$200,000 in real estate and \$97,000 in life insurance.

The state charges that Shepherd gave typhoid fever germs to Billy after inducing him to make out a will bequeathing the estate to the accused.

An air of mystery enveloped the court when selection of a jury to try Shepherd was dragging slowly along when State's Attorney Robert E. Crowe failed to put in an appearance. No explanation was offered by his assistants other than that Crowe was "engaged in a very important task."

### 2 NEGROES TO ELECTRIC CHAIR

SENTENCED TO DIE FOR CONFESSED CRIMINAL ASSAULT UPON WOMAN

(By United Press)  
Dallas, Tex., May 28.—Frank and Lorenzo Noel, negroes, were sentenced to die in the electric chair June 28th for confessed criminal assault upon Mrs. Mary Steer by a jury here today.

Sentence was passed after both had been found guilty. Lorenzo was found guilty in a hearing lasting approximately 20 minutes immediately after Frank had been adjudged guilty. Mrs. Mary Steer principal in the attack was the only witness at the hearing of the two men. The entire hearing upon the two separate trials lasted an hour and a half.

### NORTHWEST ANGLE MURDER PROBED

EVIDENCE CONCERNING DEATH OF MRS. ELSIE WHEELER TO BE GIVEN GRAND JURY

(By United Press)  
Baudette, Minn., May 28.—County authorities are conducting a personal investigation at Northwest Angle into the murder of Mrs. Elsie Wheeler in a cabin last fall. The probe is being conducted to complete evidence which will be introduced in the trial of Tony Reamer held in connection with the case. The evidence will be presented to the grand jury June 9th.

### SECRETARY OF WAR IS OPERATED ON

Boston, May 28.—Secretary of War John W. Weeks underwent an operation at the Massachusetts general hospital here today for removal of gall stones. Beyond stating that the operation was performed, hospital authorities withheld details.

### SUBWAY TRAIN CRASH IN NEW YORK CITY

New York, May 28.—Twenty persons were injured, five seriously, today when a northbound subway train crashed into the rear of an empty train standing at the 17th street station here.

### 400 FRENCH TROOPS KILLED, 1,100 HURT IN WAR WITH RIFTS

(By United Press)  
Paris, May 28.—A total of 400 French troops have been killed and 1,100 wounded in the war with the Rif in Morocco. It was officially announced in the chamber of deputies today by Premier Paul Painleve.

The premier would not divulge the number of French soldiers now participating in operations against the Rifians.

### TWO FUNERAL SERVICES FOR DR. E. D. BURTON

ONE SERVICE FOR STUDENTS AND FACULTY OF CHICAGO UNIVERSITY

THE OTHER SERVICE WAS HELD FOR THE GENERAL PUBLIC

(By United Press)  
Chicago, May 28.—Two funeral services were held here today for Dr. Ernest Dewitt Burton, president of Chicago University, who died here Tuesday. One service was for students and their faculty members only while the other was open to the public.

Members of the faculty, prominent citizens from all walks of life marched behind the casket as it was carried to Mandell Hall. The student body formed an honor guard for the two hours of solemn ceremonies. Messages of sympathy continued to come in from all parts of the country. John D. Rockefeller, Jr., sent the following message:

"Our hearts are breaking with sorrow at the sad news that has just reached us, but through the tears we cannot but glory in the achievements of Dr. Burton's life. Sorrow that he died carrying the colors in the forefront of the army. Well, it can be said of him he fought a good fight, kept the faith and finished his course. Mrs. Rockefeller and I send to you and yours this expression of our deepest sympathy."

Messages of condolence from the presidents of scores of universities and colleges, from clergymen, business men and alumni associations, were received.

### HELD ON CHARGE OF RECEIVING STOLEN BONDS

(By United Press)  
Minneapolis, May 28.—Frank O'Regan, alias Blake, was today being held in jail here on charges of receiving bonds stolen in the robbery of the Northwestern National Bank of Milwaukee December 8, 1924.

James Connolly, a former newspaper man, who was arrested in connection with the alleged attempt to dispose of the bonds, was released late yesterday. Irene Andrews, divorced wife of O'Regan, was arrested, but after being questioned, was released. According to the police, O'Regan has admitted possession of some of the stolen bonds and it is on this admission that the warrant was issued.

Bandits who robbed the Milwaukee bank obtained \$221,000 in bonds, together with other valuables and cash. Since that time Twin City police, together with Milwaukee authorities have conducted an extensive search for the robbers.

### BOY LEFT HOME SEEKING ADVENTURE

(By United Press)  
Winona, Minn., May 28.—Search has been started for Harold Blumen-tritt, 15, who disappeared Sunday, after leaving a note saying he was seeking adventure. He had sleeping blankets, some supplies and \$5 in cash.

### WEEK PASSED WITHOUT WORD FROM AVIATOR

NORWEGIAN DEFENSE MINISTRY PLANS SEARCH SOON

NORWEGIAN AERONAUTICAL SOCIETY URGES GOVERNMENT TO AID

(By United Press)  
Oslo, Norway, May 28.—Rescuers probably will have to be sent out in search of Captain Amundsen and his polar fliers. This view gained ground here today, one week after the daring aviators had hopped off from King's Bay, Spitzbergen, in their attempt to conquer the North Pole from the air.

The Norwegian defense ministry, foremost agency connected with the considered search, announced its readiness to furnish airplanes and first class pilots on short notice.

While polar explorers still contended that Amundsen would come back safely, even his staunchest friends confessed that with no news from him on this, the 7th day, there was good ground to begin framing rescue plans.

The Norwegian Aeronautical Society urged the government to hold a relief expedition in readiness and the government let it be known it was ready to lend its aid in hunting for the daring Amundsen and his companions. Copenhagen advices also indicated that the Danish government is interested in a possible search, while in some quarters there was growing inclination to take advantage of America's willingness to aid with the great dirigible, Los Angeles. The latter idea had many supporters as it was believed airplanes available here would be able only to scout to the northern limit of Spitzbergen, a limited area, useful if Amundsen's planes had fallen near the base only.

### MAC MILLAN PAINTS A DOLEFUL PICTURE

By WILLIAM J. LOSH,  
(United Press Staff Correspondent)

(Copyright, 1925, by United Press)  
Washington, May 28.—If Roald Amundsen's planes are wrecked near the North Pole, he and his party are doomed to die on the polar ice, Captain Donald MacMillan, leader of the MacMillan expedition to the Arctic this summer, told the United Press.

"Amundsen will never return if his planes are disabled at the Pole. He can never reach Cape Columbia at this season of the year. The ice is breaking up and he and his party will walk endlessly over the ice seeking land they will never find. The Pole is 650 miles from Cape Columbia. If Amundsen made 15 miles a day, it would take him until the end of June to reach the Cape. That would be too late."

MacMillan, however, said it was far too early to give up hope for the return of the missing explorers whom he regards as the greatest figure in the world in Arctic exploration.

MacMillan personally believes Amundsen landed some distance from the Pole and is musing about to the top of the world. When he has completed all the observations he needs, he will return, according to the American explorer.

"If Amundsen landed safely in open water near the Pole as I believe, he has nothing to fear. He has one month's food and the water is opening up between the ice which is just what he wants, and it is getting warmer. Things are breaking his way. Why shouldn't he take his time?"

"I believe he headed straight for the Pole and when he believed he was close there, he landed, only to find his calculations were off 50 to 100 miles. That is easy to suppose, owing to the way the compass works in those latitudes. Then he started for the Pole. Perhaps he landed in

The probe is being conducted to complete evidence which will be introduced in the trial of Tony Reamer held in connection with the case. The evidence will be presented to the grand jury June 9th.

### SECRETARY OF WAR IS OPERATED ON

Boston, May 28.—Secretary of War John W. Weeks underwent an operation at the Massachusetts general hospital here today for removal of gall stones. Beyond stating that the operation was performed, hospital authorities withheld details.

### SUBWAY TRAIN CRASH IN NEW YORK CITY

New York, May 28.—Twenty persons were injured, five seriously, today when a northbound subway train crashed into the rear of an empty train standing at the 17th street station here.

### 400 FRENCH TROOPS KILLED, 1,100 HURT IN WAR WITH RIFFS

(By United Press)  
Paris, May 28.—A total of 400 French troops have been killed and 1,100 wounded in the war with the Rifis in Morocco. It was officially announced in the chamber of deputies today by Premier Paul Painleve.

The premier would not divulge the number of French soldiers now participating in operations against the Rifians.

### TWO FUNERAL SERVICES FOR DR. E. D. BURTON

ONE SERVICE FOR STUDENTS AND FACULTY OF CHICAGO UNIVERSITY

THE OTHER SERVICE WAS HELD FOR THE GENERAL PUBLIC

(By United Press)  
Chicago, May 28.—Two funeral services were held here today for Dr. Ernest Dewitt Burton, president of Chicago University, who died here Tuesday. One service was for students and their faculty members only while the other was open to the public.

Members of the faculty, prominent citizens from all walks of life marched behind the casket as it was carried to Mandell Hall. The student body formed an honor guard for the two hours of solemn ceremonies.

Messages of sympathy continued to come in from all parts of the country. John D. Rockefeller, Jr., sent the following message:

"Our hearts are breaking with sorrow at the sad news that has just reached us, but through the tears we cannot but glory in the achievements of Dr. Burton's life. Sorrow that he died carrying the colors in the forefront of the army. Well, it can be said of him he fought a good fight, kept the faith and finished his course. Mrs. Rockefeller and I send to you and yours this expression of our deepest sympathy."

Messages of condolence from the presidents of scores of universities and colleges, from clergymen, business men and alumni associations, were received.

### HELD ON CHARGE OF RECEIVING STOLEN BONDS

(By United Press)  
Minneapolis, May 28.—Frank O'Regan, alias Blake, was today being held in jail here on charges of receiving bonds stolen in the robbery of the Northwestern National Bank of Milwaukee December 8, 1924.

James Connolly, a former newspaper man, who was arrested in connection with the alleged attempt to dispose of the bonds, was released yesterday. Irene Andrews, divorced wife of O'Regan, was arrested, but after being questioned, was released. According to the police, O'Regan has admitted possession of some of the stolen bonds and it is on this admission that the warrant was issued.

Bandits who robbed the Milwaukee bank obtained \$221,000 in bonds, together with other valuables and cash. Since that time Twin City police, together with Milwaukee authorities have conducted an extensive search for the robbers.

### BOY LEFT HOME SEEKING ADVENTURE

(By United Press)  
Winona, Minn., May 28.—Search has been started for Harold Blumentritt, 15, who disappeared Sunday, after leaving a note saying he was seeking adventure. He had sleeping blankets, some supplies and \$5 in cash.

### WEEK PASSED WITHOUT WORD FROM AVIATOR

NORWEGIAN DEFENSE MINISTRY PLANS SEARCH SOON

NORWEGIAN AERONAUTICAL SOCIETY URGES GOVERNMENT TO AID

(By United Press)  
Oslo, Norway, May 28.—Rescuers probably will have to be sent out in search of Captain Amundsen and his polar fliers. This view gained ground here today, one week after the daring aviators had hopped off from King's Bay, Spitzbergen, in their attempt to conquer the North Pole from the air.

The Norwegian defense ministry, foremost agency connected with the considered search, announced its readiness to furnish airplanes and first class pilots on short notice.

While polar explorers still contended that Amundsen would come back safely, even his staunchest friends confessed that with no news from him on this, the 7th day, there was good ground to begin framing rescue plans.

The Norwegian Aeronautical Society urged the government to hold a relief expedition in readiness and the government let it be known it was ready to lend its aid in hunting for the daring Amundsen and his companions. Copenhagen advices also indicated that the Danish government is interested in a possible search, while in some quarters there was growing inclination to take advantage of America's willingness to aid with the great dirigible, Los Angeles. The latter idea had many supporters as it was believed airplanes available here would be able only to scout to the northern limit of Spitzbergen, a limited area, useful if Amundsen's planes had fallen near the base only.

### MAC MILLAN PAINTS A DOLEFUL PICTURE

By WILLIAM J. LOSH,  
(United Press Staff Correspondent)  
(Copyright, 1925, by United Press)  
Washington, May 28.—If Roald Amundsen's planes are wrecked near the North Pole, he and his party are doomed to die on the polar ice, Captain Donald MacMillan, leader of the MacMillan expedition to the Arctic this summer, told the United Press.

"Amundsen will never return if his planes are disabled at the Pole. He can never reach Cape Columbia at this season of the year. The ice is breaking up and he and his party will walk endlessly over the ice seeking land they will never find. The Pole is 650 miles from Cape Columbia. If Amundsen made 15 miles a day, it would take him until the end of June to reach the Cape. That would be too late."

MacMillan, however, said it was far too early to give up hope for the return of the missing explorers whom he regards as the greatest figure in the world in Arctic exploration.

MacMillan personally believes Amundsen landed some distance from the Pole and is musing about to the top of the world. When he has completed all the observations he needs, he will return, according to the American explorer.

"If Amundsen landed safely in open water near the Pole as I believe, he has nothing to fear. He has one month's food and the water is opening up between the ice which is just what he wants, and it is getting warmer. Things are breaking his way. Why shouldn't he take his time?"

"I believe he headed straight for the Pole and when he believed he was close there, he landed, only to find his calculations were off 50 to 100 miles. That is easy to suppose, owing to the way the compass works in those latitudes. Then he started for the Pole. Perhaps he landed in (Continued on page 6)

Buy Performance Like This?

The extraordinary performance of this Oldsmobile Six is certain to revise your present ideas of motor car values. So little effort is required to thread it through traffic, or into small parking spaces—that it almost seems to possess a sense of direction. And should you suddenly encounter a steep grade—or sink into deep sand—you will be amazed at what little effort its powerful L-Head engine makes in pulling you smoothly out.

You'll appreciate these things on your first ride—any time it's convenient come and drive this car.

## SALVATION ARMY REVIVAL MEETINGS

Colonel J. C. Addie of Chicago and Ensign J. W. Westbrook of Texas in Charge

SERIES START JUNE 3

Colonel Addie Has Been an Officer of the Salvation Army For Over 43 Years

Colonel J. C. Addie of Chicago and Ensign J. W. Westbrook of Texas will conduct a series of old time revival meetings in connection with the local Salvation Army work, commencing with Wednesday, June 3, for six days.

Colonel Addie has been a Salvation Army officer for over 43 years. He laid the foundation for the now extensive work in Canada, being the first officer in that country. He was later transferred to this country, where he held some of the most important positions in connection with the work in the states. Besides being a good speaker, he is known the whole country over as a composer of songs. He will introduce some of his original songs in the meetings.

Ensign Westbrook accompanies the Colonel as his musician and singer. He has become famous for his playing on the banjo and is in a class all his own when it comes to performing his part. Those who hear the Ensign are generally so taken up with his playing and singing that it is seldom they do not avail themselves of every opportunity of hearing him.

Plans are now being completed to make this campaign one of the most successful ever held in the local barracks on Front street.

Meetings will be held every evening at 8 o'clock preceded by open air services. The campaign will wind up with a union mass meeting to be held in the Methodist church, and Colonel Addie will deliver his famous lecture, "Modern Miracles."

### Clara Lutheran Church

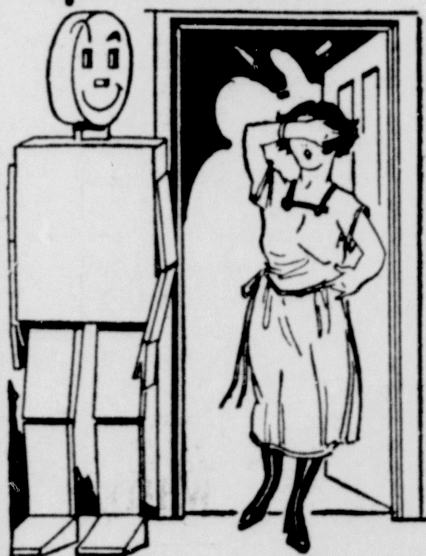

The Home and Foreign Missionary society will meet this evening in the church parlors at 8 o'clock. We look for a large attendance.

All the members of the confirmation class are asked to meet in the church parlors at 7 o'clock tonight.

## H. Z. MITCHELL AT THE ROTARY

Bemidji Newspaper Publisher and President State Editorial Association Gives Address

IS VERY WITTY, INSTRUCTIVE

Compares Lowly Country Publisher With the Cinderella Who Eventually Finds Her Prince

H. Z. Mitchell, publisher of the Bemidji Daily Pioneer, President of the State Editorial Association, Past Governor of the Kiwanis, was the speaker of the day at the Rotary club luncheon yesterday. He took as his subject the problems of the country publisher of the small town paper.

He showed himself fully conversant of the many problems and offered practical solutions. Like the Cinderella of the fairy story the publisher has found his right status and is getting a share of the advertising patronage rightfully due him. The country paper is no oracle, but it does present a clear picture of community happenings and when one is absent from the home town, it is really a letter from home.

He made a plea for more advertising, more printing for the home printer.

George E. Lowe was presented a Century club button for attending 100 consecutive club meetings, the presentation talk being made by Wm. Haydon.

D. E. Whitney reported on Boys work, and E. O. Webb on the number to make the trip to St. Cloud, May 27, on the occasion of the charter presentation.

## CAN'T SAVE ON BOTH GAS TAX AND ROADS

Braimard auto owners and all the 500,000 others in the state had a recent illustration that what is saved on the automobile sometimes comes out of the cars. Thousands of car owners tanked up April 30 to beat the gas tax that took effect the next day. If they averaged 10 gallons each per tank, they saved 20 cents apiece—less the use of \$100,000 of extra highway improvements. This brought a suggestion that sometimes dimes are saved at the loss of dollars.—Highway Bulletin.

## Banking for the People

COPYRIGHT 1924 HARVEY BLODGETT

### When You Ask for a Bank Loan

It has been aptly said that the banker is not a last resort but a first resource. He likes to get in at the beginning of things.

Therefore, it is well to cultivate your banker that he may be familiar with what you are trying to do; and to begin early to lay a good credit foundation, even though you do not need it immediately.

A banker assumes three risks when he grants a loan.

First, the moral risk—one's character, the way a man has lived and has met his obligations has first consideration.

Second, the business risk—capacity. That is the ability with which he manages his affairs, his grasp of his business and its opportunities, his success in turning over his goods, and the economy with which he runs his business.

Third, the property risk—his financial statement. Not only how much he owns over what he owes, but the "liquidity" of his assets, the marketability of his stocks, the demand for his

product—these are important factors. A summary of qualifications has been stated in these words: "He has credit who has a wide margin of surplus; who keeps it in liquid form; who takes care of his character; who never breaks a promise, gives value for what he receives, and never speculates."

As the bank assumes the risk of the repayment of loans, and as it is vitally essential that it keep its own assets in liquid form, it must exercise the greatest caution in granting loans or fixing credit lines.

Furthermore, it is responsible to the community for keeping a proper balance between production and distribution. That is the more reason for discrimination in apportioning the community's reserve funds in proper channels.

As almost every successful business concern or farm has occasion to use its credit in meeting its opportunities, a bank encourages the building of credit. By this we do not mean that credit should be sought right now, but that one should put himself in position to borrow for profit at the proper time.

## Banking for the People

COPYRIGHT 1924 HARVEY BLODGETT

### When You Ask for a Bank Loan

IT has been aptly said that the banker  
is not a last resort but a first  
resource. He likes to get in at the  
beginning of things.

Therefore, it is well to cultivate  
your banker that he may be familiar  
with what you are trying to do; and to  
begin early to lay a good credit founda-  
tion, even though you do not need it  
immediately.

A banker assumes three risks when  
he grants a loan.

First, the moral risk—one's char-  
acter, the way a man has lived and has  
met his obligations has first considera-  
tion.

Second, the business risk—capacity.  
That is the ability with which he  
manages his affairs, his grasp of his  
business and its opportunities, his suc-  
cess in turning over his goods, and the  
economy with which he runs his  
business.

Third, the property risk—his finan-  
cial statement. Not only how much  
he owns over what he owes, but the  
"liquidity" of his assets, the marketa-  
bility of his stocks, the demand for his

product—these are important factors.

A summary of qualifications has been  
stated in these words: "He has credit  
who has a wide margin of surplus; who  
keeps it in liquid form; who takes care  
of his character; who never breaks a  
promise, gives value for what he  
receives, and never speculates."

As the bank assumes the risk of the  
repayment of loans, and as it is vitally  
essential that it keep its own assets in  
liquid form, it must exercise the  
greatest caution in granting loans or  
fixing credit lines.

Furthermore, it is responsible to the  
community for keeping a proper bal-  
ance between production and distribu-  
tion. That is the more reason for dis-  
crimination in apportioning the com-  
munity's reserve funds in proper chan-  
nels.

As almost every successful business  
concern or farm has occasion to use its  
credit in meeting its opportunities, a  
bank encourages the building of credit.  
By this we do not mean that credit  
should be sought right now, but that  
one should put himself in position to  
borrow for profit at the proper time.

## IMPORTANCE OF HOME-MAKING

THE General Federation of Women's clubs, through its new department on The American Home, has undertaken a nationwide home equipment survey. All clubs whether they have as yet created an American Home department or not are concerned in this survey for nine-tenths of all club-women are home-women. The home, since the first birthday of the first woman's club, has been the center of the club-woman's interest no matter how far-fung the circumference of her activities may be.

So the establishment of the new Department of the American Home in the General Federation did not create a new interest among club-women. But it did constitute a new declaration of faith that home-making is the most important industry in the nation—the industry for which in the last analysis all other industries are operated and from which the nation must draw both the raw material and the finished product of its citizenship.

Home-making, as correctly argued, is more than house-keeping, but no woman can be a success as a home-maker if she is a failure as a house-keeper, whether she "keeps" her house with her own lone two hands or with a retinue of servants. Successful housekeeping today, like any successful industry, requires a periodical stock-taking of methods and materials. It calls for an open-minded, forward-looking inquiry as to whether our house-keeping methods and equipment are the best that are available to us; whether the doctrine of thrift extolled by us to our children in the use of money and materials, is repudiated in our expenditure of needless labor and bootless use of time; whether we preach conservation of national resources, while in our own housekeeping methods we practice waste of human resources—exhausting our nervous and mental energies in an effort to keep pace with modern life with the slow gait of out-of-date housekeeping ways; whether we are clinging to any obsolete, labor-wasting, wrinkle-making housekeeping methods because we are unwittingly confusing the simple life with primitive life.

## HOMAGE TO THE VETERANS

MEMORIAL DAY is a day calling for reverence due those who gave their lives for our country. Especially should we honor the veterans of the Grand Army whose ranks are fading.

It will be worth while if every citizen turned to the pages of history and scanned, for instance, the record of the First Minnesota, which at Gettysburg, was launched against the flower of the South and there stemmed the tide of Confederacy. Some 330 men made the assault and when the terrific clash was over, 232 were reported killed and wounded. Deeds like these are among the rich heritage of history enjoyed by Minnesota.

It is with pride that one sees how the American Legion is assisting the G. A. R. in taking over many of the duties of arrangements for the proper observance of Memorial Day.

In conjunction with the day, one should observe the proper rules for the display of the flag. Flags will be flown at half mast from sunrise to noon, and at full mast from noon until sunset.

## A FOOLHARDY UNDERTAKING

THE polar aerial expedition of Amundsen and Ellsworth was a foolhardy undertaking. Flying into silent, uncharted areas, where temperature and weather conditions are almost entirely unknown; where not only the flying is a dangerous proceeding but where alighting among the icepacks is suicidal and where, if it were possible to land, one would have infinite difficulty to "take off"—these are all things which tend to militate against the success of an airplane flight to the pole.

Airplane flying is being reduced to an exact science when it is equipped with the necessary landing fields, supply stations, tried routes, etc. But to make a dash, as did Amundsen and his colleague Ellsworth, has its brave features, it is true, but is so rash that what observations may be made by the two will be lost to the world if they have come to grief.

## DECISION IS POPULAR ONE

THE decision of the United States Supreme court making it perfectly lawful to publish the names of income tax payers and the amounts paid, is one that meets with general public approval.

Congress permitted income tax returns to be inspected by the public, but no action was taken by that body to repeal an old law which barred newspapers from publishing such returns. As long as the returns were open to the public, they became a public record, and as such, according to the decision, they can now be lawfully published.

The public, of course, is deeply interested in the income taxes paid by many men and women of note. Another kind of publication, just as interesting, of course is not permitted, would be to publish a list of tax dodgers.

## HIGHWAY PAVING COMING

STATE Trunk Highway No. 27 from Belle Prairie to Brainerd is to be graded this year, and paving will unquestionably follow next year. The work of the Highway Board in making a good detour and keeping it in shape, helps Brainerd considerably when grading and paving is under way, for the diversion of traffic to a good detour will not impede the stream of tourists and others to this city.

## PROPAGANDA STUFF

THE flood of propaganda stuff seeking free publicity, continues to bombard the country dailies and weeklies. The new postage laws raised postage from one cent to a cent and a half on open letter mail, but so far the change in rates has not checked the flood of the propaganda. Maybe five cents postage would do it.

The average country paper gets in its daily mail probably a dozen "free space grabbing" stuff letters compared with one worth while letter. Every movement has its press agent.

BRAINERD Rotary not only keeps up remarkable attendance at its club meetings but turned out with 36 members at the St. Cloud installation of a new club. There were only five absentees. Brainerd is believed to have had the largest representation of any club present.

## Other People's Opinions

Communications are not to exceed 500 words. All the other members may be equally worthy of confidence, but I feel that as business men or occupational men they have failed to note the rapid and extensive growth of the Memorial Day influence on the already high civilization of America.

## Commend's Mayor's Stand

Editor, Dispatch:

In behalf of the Grand Army of the Republic, I wish to voice the unanimous approval of the Grand Army veterans for the attitude taken by Mayor Cain on the action of the city council, regarding a license to a circus to exhibit in Brainerd on Memorial Day.

I wish also to express my personal approval of the mayor's objection to issuing the license. I personally know but one member of the city council. I have a high opinion of that member, W. E. Lewis, and I am also of the opinion that the other members may be equally worthy of confidence, but I feel that as business men or occupational men they have failed to note the rapid and extensive growth of the Memorial Day influence on the already high civilization of America.

The original object of the day was to do honor to the dead Civil War Union soldiers and incidentally to inculcate patriotism. In recent years, there has been a great expansion of the original purpose of the day. Its horizon is the whole border of the United States in territory, and in ethics, the whole human race. It is an active factor in making the native American better qualified for that high privilege.

Memorial Day properly observed, aids in providing better homes, better parents, better children, better teachers, better school boards, better schools, better judges, lawyers, doctors, preachers, merchants, farmers, shopmen.

Memorial Day properly observed, has a wonderful horizon embracing all mankind.

I have been thinking that our members of the city council in voting to admit a circus had for its horizon the rim of a dollar, and to many people the horizon of a dollar is the biggest thing on earth. But does it compare with that or Memorial Day?

For many years past the whole population of our city has turned out on Memorial Day morning, including hundreds of patriotic school children, conducted by patriotic superintendents and many teachers, usually lovers of America. With flags and music their vast numbers marched in orderly parade to our beautiful cemetery, where under the nodding plumes of the pines all united in a wonderfully solemn patriotic ceremony.

If no outside concern be permitted to distract the people from these inspiring ceremonies at the cemetery and its effect, the populace will enjoy the quiet influence of the home or be refreshed by the beauties of nature at some lake or by the peaceful murmur of the waters of a flowing river, instead of turning the day into a gala occasion.

Which do we prefer, a bagful of dollars of circus money, paid for a license, or a beautiful Memorial Day filled with all of its hallowed influences?

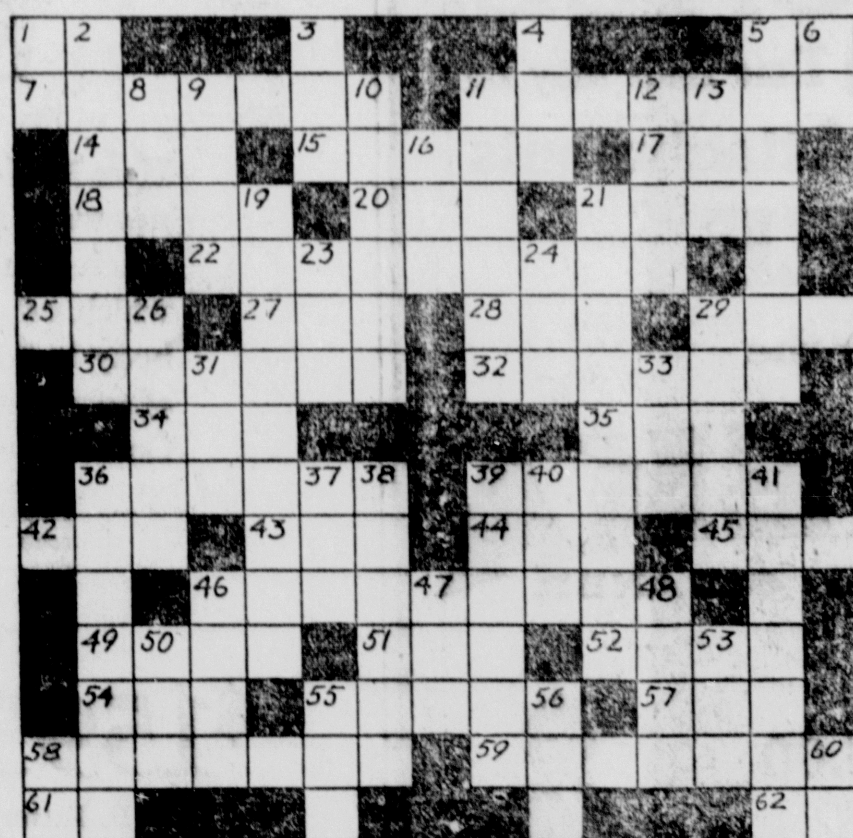

J. A. WILSON,

Adjutant Pap Thomas Post,  
G. A. R.

## TODAY'S DISPATCH CROSS WORD PUZZLE

### HOW TO SOLVE A CROSS-WORD PUZZLE

When the correct letters are placed in the white spaces this puzzle will spell words both vertically and horizontally. The first letter in each word is indicated by a number, which refers to the definition listed below the puzzle. Thus No. 1 under the column headed "horizontal" defines a word which will fill the white spaces up to the first black square to the right, and a number under "vertical" defines a word which will fill the white squares to the next black one below. No letters go in the black squares. All words used are dictionary words, except proper names. Abbreviations, slang, initials, technical terms and obsolete forms are indicated in the definitions.

(© 1925, Western Newspaper Union.)

### Horizontal.

- 1—Preposition
- 6—Three-toed sloth
- 7—River in Ireland
- 11—Small berry
- 14—Period of time
- 15—Drunkard
- 18—Sour
- 21—Level
- 23—Spider's home
- 27—To regret
- 28—Suffix meaning "pertaining to"
- 29—Cutting instrument
- 30—To repair again
- 32—Belonging to Ralph
- 34—Assistance
- 35—Sorrow
- 39—Mohammedan colleges
- 42—Skill
- 43—Absence of air (abbr.)
- 44—Hawaiian food
- 46—Man or human nature as an epitome of the great world
- 49—Part of foot
- 51—Girl's name
- 54—Printing measure
- 55—Fleshy
- 58—Forest battlefield in France
- 59—Having the greatest height
- 61—Preposition
- 62—Preposition denoting direction

### Vertical.

- 1—Like
- 2—Edifice for dramatic performance
- 3—Metal vessel
- 4—Belonging to us
- 5—Biblical liar
- 6—Impersonal pronoun
- 8—Section of a circle
- 9—Small spike
- 10—Rumored
- 11—Middle
- 12—To wander
- 13—Hail!
- 14—Hawaiian food
- 15—Recklessly bold performer
- 21—Small Alpine perennial plant
- 23—Source of light
- 24—A republic (abbr.)
- 26—Animal
- 29—To cut off
- 31—Prefix meaning "wrong"
- 33—Small lap dog (abbr.)
- 35—Science of the bow and arrow
- 37—Pouchlike part of flower
- 38—One who writes
- 39—Directed upward
- 40—Gambling game
- 41—Most pathetic
- 42—Prefix meaning "middle"
- 43—Single
- 44—English (abbr.)
- 45—Before (poetic)
- 55—Same as 47 vertical
- 56—To devour
- 58—Month of Hebrew calendar
- 60—Preposition

Solution will appear in next issue.

## A Lovely New Home Going Up In West Brainerd For Ralph Falconer

Mr. Falconer is owner of the successful Riverside Grocery. His business experience has proven to him the value of owning a real home and he came to us recently for the materials to build one.

The new house will be 26x36 with a 9x16 sun parlor. It will have a full basement and every detail from basement to roof will be modern.

The exterior finish will be Rockbound stucco and the roof will be covered with 12 inch Genasco Laytite Shingles.

We were able to make a few suggestions to Mr. Falconer that resulted in a saving to him and we are certain that he and his family will be well pleased with the finished home.

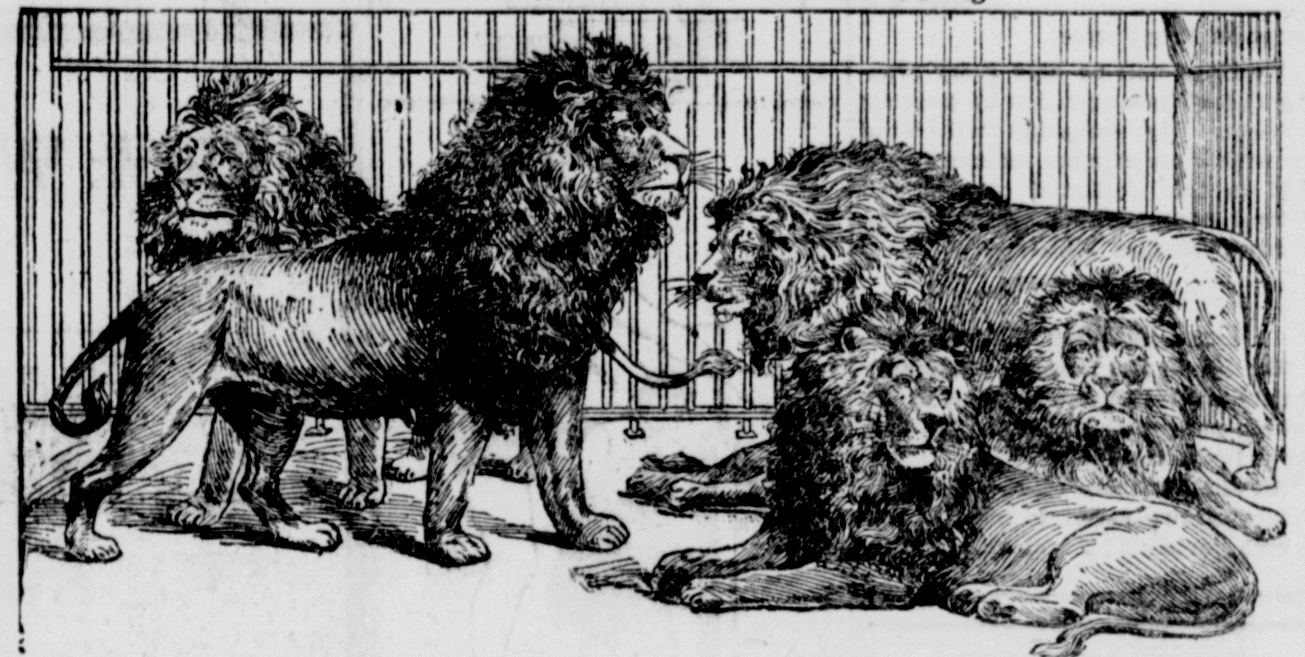

You will appreciate our service, too, no matter what kind of a job you have.

## IMPORTANCE OF HOME-MAKING

THE General Federation of Women's clubs, through its new department on The American Home, has undertaken a nationwide home equipment survey. All clubs whether they have as yet created an American Home department or not are concerned in this survey for nine-tenths of all club-women are home-women. The home, since the first birthday of the first woman's club, has been the center of the club-woman's interest no matter how far-flung the circumference of her activities may be.

So the establishment of the new Department of the American Home in the General Federation did not create a new interest among club-women. But it did constitute a new declaration of faith that home-making is the most important industry in the nation—the industry for which in the last analysis all other industries are operated and from which the nation must draw both the raw material and the finished product of its citizenship.

Home-making, as correctly argued, is more than house-keeping, but no woman can be a success as a home-maker if she is a failure as a house-keeper, whether she "keeps" her house with her own lone two hands or with a retinue of servants. Successful housekeeping today, like any successful industry, requires a periodical stock-taking of methods and materials. It calls for an open-minded, forward-looking inquiry as to whether our house-keeping methods and equipment are the best that are available to us; whether the doctrine of thrift extolled by us to our children in the use of money and materials, is repudiated in our expenditure of needless labor and bootless use of time; whether we preach conservation of national resources, while in our own housekeeping methods we practice waste of human resources—exhausting our nervous and mental energies in an effort to keep pace with modern life with the slow gait of out-of-date housekeeping ways; whether we are clinging to any obsolete, labor-wasting, wrinkle-making housekeeping methods because we are unwittingly confusing the simple life with primitive life.

## HOMAGE TO THE VETERANS

MEMORIAL DAY is a day calling for reverence due those who gave their lives for our country. Especially should we honor the veterans of the Grand Army whose ranks are fading.

It will be worth while if every citizen turned to the pages of history and scanned, for instance, the record of the First Minnesota, which at Gettysburg, was launched against the flower of the South and there stemmed the tide of Confederacy. Some 330 men made the assault and when the terrific clash was over, 232 were reported killed and wounded. Deeds like these are among the rich heritage of history enjoyed by Minnesota.

It is with pride that one sees how the American Legion is assisting the G. A. R. in taking over many of the duties of arrangements for the proper observance of Memorial Day.

In conjunction with the day, one should observe the proper rules for the display of the flag. Flags will be flown at half mast from sunrise to noon, and at full mast from noon until sunset.

## A FOOLHARDY UNDERTAKING

THE polar aerial expedition of Amundsen and Ellsworth was a foolhardy undertaking. Flying into silent, uncharted areas, where temperature and weather conditions are almost entirely unknown; where not only the flying is a dangerous proceeding but where alighting among the icepacks is suicidal and where, if it were possible to land, one would have infinite difficulty to "take off"—these are all things which tend to militate against the success of an airplane flight to the pole.

Airplane flying is being reduced to an exact science when it is equipped with the necessary landing fields, supply stations, tried routes, etc. But to make a dash, as did Amundsen and his colleague Ellsworth, has its brave features, it is true, but is so rash that what observations may be made by the two will be lost to the world if they have come to grief.

## DECISION IS POPULAR ONE

# HEDDA HOYT TALKS ABOUT THINGS THAT INTEREST THE BUSY WOMEN OF 1925

## HOME DYEING

By HEDDA HOYT  
(Fashion Editor of the United Press)  
(Written for the United Press)

New York, May 27.—To dye or not to dye that is the question! Now that the season for pastels is here, we gaze, at the white evening frock that has become slightly yellowed and wonder whether it will turn out all right in the dyeing process. Perhaps it is not worth sending to a professional dyer who will charge from \$5 to \$10. If so, it is worth dyeing at home and though this seems a big order, it is not really difficult if one understands how to dye.

Like the villian in the "Movies" we should dye with our gloves on. One can purchase rubber gloves at the ten cent stores these days. If the gown is of light-weight material, such as georgette or chiffon, it may be tinted rather than dyed. In fact, where pale pastel shades are to be chosen, the tint bath is usually sufficient and there is less danger of shrinkage from boiling.

Choose any good dye and be sure to get a silk dye for silk goods and cotton or wool dye for cotton or wool mixtures. The directions on each dye package must be thoroughly followed if one wishes success. Dye pans must be perfectly clean and all dye must be strained through cloth before putting into the dye bath. The material should be washed with soap and luke warm water rinsed and placed into the dye bath while wet. Once the gown has been placed in the pan, it should not be left for constant stirring is essential.

By taking the material out of the water occasionally one can determine when the required shade is obtained. Most people make the mistake of getting too deep a shade. One need not boil the material as long as the directions require, but until the right shade is obtained.

The boiling process should be very slow. When the right shade is obtained, place the material in cold water and rinse until water is absolutely free of color. A bath tub is a good place for this. The garment should then be hung over a rod in a dark place and pressed while damp. If there is beadwork or embroidery work, one presses on a heavy bath towel with a slightly warm iron, pressing very lightly. It is better to go over the gown several times than to try to iron too well in the first place.

For tinting, one mixes a tint bath according to directions on the dye package, places the wet garment into the tint as one would into blueing. Sometimes it requires ten or fifteen minutes for the gown to absorb sufficient color. Rinse and iron as after a dye bath.

### Faintheartedness

Making mistakes is not so bad as being so afraid of making them that we do nothing.

### Keep Your Eye on the Foot Rule

Your garden space will accommodate plants to the best advantage to a certain number, and no more. It is useless trying to crowd more into a given space than it can handle, for the plants will suffer from crowding or from lack of nourishment. These May days are transplanting time in both vegetable and flower garden. Your seed packet gives directions as to the proper spacing of the plants. If you have lost the packets the seed catalogue will also have the schedules, and standard gardening books, such as Bailey's books on vegetables and Adolph Krumm's "A to Z," and other books have handy tables. Stick to the distance. They are tested and proved by years of experiment by expert growers. They are the distances which permit the full growth, both of the roots and the top of the plant, for a maximum production of its crop. When it says space head lettuce eight inches, don't try to crowd them into four. The little plants may look lonesome before they get going, but they won't when they get their growth. Give bush limas plenty of room and watch the results in extra bean production. Eighteen inches apart is a good distance. A foot is the minimum, but is likely to prove alto-

When transplanting use a measuring stick. Each plant requires a certain amount of space in which to grow.

gether too close. In rich soil it may succeed. Plants need more room in poor soil, because the roots have to hunt farther for their food. Watch spacing in the flower garden. It means the success or failure of your beds. Don't mind if the first bloom is scattered and each plant seems to be acting a solo part. They

will meet soon enough, and the extra size and quantity of flowers will well repay the room they have been awarded. Be careful with large growing plants, such as the colossal zinnias and African marigolds. Two feet apart will find them touching by fall. Eighteen inches is best for a good mass.

Keep your spaces by cutting a measuring stick the right length, or better yet, a series of them from six inches to two feet. Space your plants by these measures and you can't go wrong.

## MINNEAPOLIS SHRINERS LEAVE FOR LOS ANGELES

(By United Press)  
Minneapolis, May 28.—More than 300 Shriners left today for Los Angeles where they will attend the annual convention of the Imperial Council of Nobles. Approximately 200 St. Paul Shriners left for the convention city last night. The Minneapolis delegation includes the band and drum corps, patrol and chanters of Zuhrah Temple.

### Valuable Ancient Chart

In a chart dated 1436 Andrea Bianco a Venetian chartmaker, shows two islands west of the Azores, which he names "Antilla" and "De Laman Satanaxio." Some authorities say this indicates a knowledge of the Americas.

### NOVEL DEMONSTRATION CAR

The Oldsmobile novel demonstration chassis is attracting considerable attention at the Sherlund Company garage.

"We can do anything any automobile can do, and we show you we do it," is the slogan for the fleet of Oldsmobile demonstration chassis. The demonstrators are working out of the larger cities, being routed so that virtually all sections of the country will be visited.

The chassis are fitted with two comfortable seats so that anyone can accompany the driver and closely watch the performance. The absence of body and floorboards permits a good view of the power trans-

mission units while in action. At the rear of each chassis, over the axle, is a box containing a complete assortment of parts, including crank shaft, cam shaft, clutch faces, etc., these permit a closeup view of the vital parts of the car and assist in the driver's explanation of the function of each and every part of the Oldsmobile.

Giving this instruction to those not fully informed and unfamiliar with automotive mechanics, the demonstrator also is showing the capabilities of the Oldsmobile in every possible way. This includes hill climbing, idling, making runs in high gear, and other tests calculated through the power and stamina of an automobile.

## Woman of 75 says Kellogg's ALL-BRAN cleansed system of constipation's poison

Stop constipation and enjoy good health, keynote of letter.

If you suffer from constipation, there is good cheer for you in Mrs. Levy's words:

On my seventy-fifth birthday I take great pleasure in letting you know that it is due to Kellogg's ALL-BRAN that I am now enjoying good health. I was compelled to take an enema or cathartic every night. Since May, 1924, when a friend recommended Kellogg's ALL-BRAN, the poison in my system has been eliminated without the aid of purgatives. I heartily recommend Kellogg's ALL-BRAN to everyone afflicted with intestinal trouble.  
Yours gratefully,  
MRS. PAULINE LEVY,  
41 W. 53rd St., New York City.

Don't let constipation drag you down. Cleanse your system of its poisons. Thousands have regained their old-time vigor and vim, stopped constipation forever, by eating Kellogg's ALL-BRAN. Eat two tablespoons daily—in chronic cases, with every meal. Relief guaranteed or money refunded. Ready-to-eat with milk or cream. See the recipes given on the package. Kellogg's ALL-BRAN is made in Battle Creek, Michigan. Sold by all grocers. Served in leading hotels and restaurants.

# HEDDA HOYT TALKS ABOUT THINGS THAT INTEREST THE BUSY WOMEN OF 1925

## HOME DYEING

By HEDDA HOYT  
(Fashion Editor of the United Press)  
(Written for the United Press)  
New York, May 27.—To dye or not to dye that is the question!

Now that the season for pastels is here, we gaze, at the white evening frock that has become slightly yellowed and wonder whether it will turn out all right in the dyeing process. Perhaps it is not worth sending to a professional dyer who will charge from \$5 to \$10. If so, it is worth dyeing at home and though this seems a big order, it is not really difficult if one understands how to dye.

Like the villain in the "Movies" we should dye with our gloves on. One can purchase rubber gloves at the ten cent stores these days. If the gown is of light-weight material, such as georgette or chiffon, it may be tinted rather than dyed. In fact, where pale pastel shades are to be chosen, the tint bath is usually sufficient and there is less danger of shrinkage from boiling.

Choose any good dye and be sure to get a silk dye for silk goods and cotton or wool dye for cotton or wool mixtures. The directions on each dye package must be thoroughly followed if one wishes success. Dye pans must be perfectly clean and all dye must be strained through cloth before putting into the dye bath. The material should be washed with soap and luke warm water rinsed and placed into the dye bath while wet. Once the gown has been placed in the pan, it should not be left for constant stirring is essential.

By taking the material out of the water occasionally one can determine when the required shade is obtained. Most people make the mistake of getting too deep a shade. One need not boil the material as long as the directions require, but until the right shade is obtained.

The boiling process should be very slow. When the right shade is obtained, place the material in cold water and rinse until water is absolutely free of color. A bath tub is a good place for this. The garment should then be hung over a rod in a dark place and pressed while damp. If there is beadwork or embroidery work, one presses on a heavy bath towel with a slightly warm iron, pressing very lightly. It is better to go over the gown several times than to try to iron too well in the first place.

For tinting, one mixes a tint bath according to directions on the dye package, places the wet garment into the tint as one would into blueing. Sometimes it requires ten or fifteen minutes for the gown to absorb sufficient color. Rinse and iron as after a dye bath.

### Ability to Do

To think and feel we are able is often to be so.—J. Hawes.

## BREEZY POINT OPENS SATURDAY

Main Lodge Building, 145 by 60 Feet, Has Dining Room Seating 500

### BUILDING MADE OF HUGE LOGS

Description of Improvements at Resort Costing Over \$250,000

Standing out as the salient feature of a quarter million dollar expansion program now being carried out by Captain William H. Fawcett at Breezy Point Lodge, on Big Pelican Lake near Brainerd, is the log resort hotel. This model summer resort hotel, destined to be the most unique in America, is being completed at a cost of \$150,000 without a single nail being used. Construction of the lake resort hotel entirely of logs was carried on by pioneer woodsmen from the northwoods.

The season at Breezy Point opens Memorial Day, May 30th and ends on September 10th.

Captain W. H. Fawcett is building four new buildings this year and described in detail they include an addition to the main lodge building, a grocery store and a residence for himself. These three buildings will be of logs construction. The fourth building is a power plant which will be similar in design and construction to the buildings now on the property. He is in addition to this putting in a complete new lighting plant, a telephone exchange and telephones in each of the important rooms.

The main lodge building, which is 145x60 feet and three stories high, is entirely of logs, which are both coped and scribed. The logs used are Norway pine and were obtained from the Crookston Lumber Company from their holdings north of Bemidji. This is about the last of the Norway pine in Minnesota and the size and dimensions that were used were extremely difficult to obtain.

In the basement of the lodge building, there is a billiard room with space for six tables, next to this is a double bowling alley with spectators space. There is also a barber shop, tailor shop and men's lavatory on this floor.

The first floor, which is on practically the same level as the first floor of the present lodge building, will be used as a dining room that will seat 500 guests at one time. This room will be divided at one end with a space for a twenty piece orchestra and on either side there will be a large cobblestone fireplace. This room will have the appearance of a large log cabin and all construction will be of logs. The division between the small dining booths on the sides will be made with logging chains. The light fixtures will be made from old circular saws hung from the ceiling with logging chains. There will be peavies and cross cut saws attached to the walls for decoration, while here and there will be an old birch bark canoe hung from the ceiling.

Opening off the main dining room and connecting to the main lodge building will be a very modern

kitchen, including the latest equipment with all the latest and modern equipment for the prompt and sanitary handling and preparation of food.

The second floor of the lodge building will contain 16 bedrooms, each with a private bath. The bathrooms will have built in tubs, tile floors and tile wainscoting and the most modern fixtures and equipment available at this time. This floor, as well as the first floor, is connected with the present lodge building by a covered passage way in which will be used on the second floor as writing room and on the first floor as a lounging room.

The present dining room in the old building will be converted into a lounging room and a large brick fireplace will be installed at the end of the room to give the room a cheerful appearance.

The grocery store, which is 62 feet long by 25 feet wide, will be entirely constructed of logs. It will be placed in the center of the house-keeping cottages where it will be a very attractive addition to that part of the grounds.

Captain Fawcett's own residence which also is entirely constructed of logs will have a living room open to the roof, showing the log construction not only in the side walls, but also supporting the roof. There will be five bedrooms and three bathrooms in the cabin together with a small dining alcove and a kitchen.

Captain Fawcett will also have his private study in the cabin, where he will store his guns and all his personal trophies. This room he will use as a private office for the conducting of his personal business.

A power house will be built to house the new electric lighting equipment and the pump. This will be built away from the cottages and the lodge so there will be no disturbance from noise of any sort.

### RESCUERS PROBABLY TO BE SENT AFTER AMUNDSEN

(Continued from Page 1)

a lead that closed on him and he had to pull his planes on the ice. He may be waiting for it to open up again before taking off for home. I fully believe he is safe and will return."

### JACK KEARNS TO FINANCE EXPEDITION

Los Angeles, May 28. — Jack Kearns, famous prize ring impresario, announced today he had undertaken to finance Captain Haakon Hammer on an expedition to the North Pole to find Captain Amundsen and his party of polar explorers.

Captain Hammer flew to within 400 miles of the Arctic Pole two years ago on a similar expedition of relief for Amundsen.

The Danish explorer is here convalescing from eye trouble and has announced his determination to go to the rescue of his old friend and associate. He told the United Press he was considering Kearns' offer and that nothing would stop him from going to Amundsen's relief now but a lack of funds.

"I am going to send Captain Hammer to the North Pole to find Amundsen if he will accept my terms," declared Kearns. "He is the logical man to make the relief flight and I propose to see that he gets his planes and a crew organized immediately for the flying."

## BRAINERD SCHOOLS AID NEAR EAST

Achieve Most Helpful Results in Campaign by Contributing \$203.36

### GET APPRECIATIVE LETTER

Individual Tokens Received by Scholars, Special Present For High School

The Brainerd schools were stimulated in giving to the Near East Relief by the receiving of small rulers, sent out from the headquarters of the N. E. R. in Minneapolis.

The amounts given by the schools were as follows:

Washington, high school	\$ 64.26
Harrison building	48.50
Whittier building	31.10
Lincoln building	29.40
Lowell building	27.10

Riverside building ..... 3.00

Total .....\$203.36

In a recent letter to F. A. Farrar, treasurer of the Brainerd fund for Near East Relief, Mr. Jackman, regional director, Minneapolis, expressed thanks to W. C. Cobb, superintendent of schools, also the teachers for their co-operation in this ruler campaign and the generous gift of the children.

A very pretty set of book-ends, made of sandalwood by the children of the Near East orphanages, was presented by Mr. Jackman to the Brainerd high school.

## A Pennsylvania Veteran

(By United Press)

Harrisburg, Pa., May 28.—Among the old time railway men recently retired by the Pennsylvania railroad was Harry W. (old Dan) Hileman, who had worked 43 years and three months in the Sunbury, Pa., shops. He was known as the champion driller of the Pennsylvania system and is said to have drilled 900 holes through steel sheeting in one 8 hour day. He is 65.

# DEPENDABLE

## Make These Signs Your Guide

DAYS of brisk Service! Oil stations and dealers on most every convenient corner and side road. Which ones to choose? Certainly not all of them. Like too great a variety of foods for an individual, the mingling of even the best of gasolines, or of lubricating oils, forms a mongrel mixture that will throw the most dependable motor off its feed.

The safe way is to discover the Company whose products prove dependable in your own motor—then use the service of that Company exclusively. In this way, you are certain of uniform quality, and are in a better position to check results.

For the convenience of the thousands of automobile owners whose demand for dependable fuel and lubrication has built "Northwestern Service" (and for those who have yet to experience the quick pick-up, power and smooth motor performance which accompanies the use of "Northwestern" gasolines and lubricating oils), we are placing these signs—symbols of "Northwestern" courtesy and dependable service—to guide you in city, town or countryside, whenever you go.

## BREEZY POINT

## OPENS SATURDAY

Main Lodge Building, 145 by 60 Feet, Has Dining Room Seating 500

## BUILDING MADE OF HUGE LOGS

Description of Improvements at Resort Costing Over \$250,000

Standing out as the salient feature of a quarter million dollar expansion program now being carried out by Captain William H. Fawcett at Breezy Point Lodge, on Big Pelican Lake near Brainerd, is the log resort hotel. This model summer resort hotel, destined to be the most unique in America, is being completed at a cost of \$150,000 without a single nail being used. Construction of the lake resort hotel entirely of logs was carried on by pioneer woodsmen from the northwoods.

The season at Breezy Point opens Memorial Day, May 30th and ends on September 10th.

Captain W. H. Fawcett is building four new buildings this year and described in detail they include an addition to the main lodge building, a grocery store and a residence for himself. These three buildings will be of logs construction. The fourth building is a power plant which will be similar in design and construction to the buildings now on the property. He is in addition to this putting in a complete new lighting plant, a telephone exchange and telephones in each of the important rooms.

The main lodge building, which is 145x60 feet and three stories high, is entirely of logs, which are both coped and scribed. The logs used are Norway pine and were obtained from the Crookston Lumber Company from their holdings north of Bemidji. This is about the last of the Norway pine in Minnesota and the size and dimensions that were used were extremely difficult to obtain.

In the basement of the lodge building, there is a billiard room with space for six tables, next to this is a double bowling alley with spectators space. There is also a barber shop, tailor shop and men's lavatory on this floor.

The first floor, which is on practically the same level as the first floor of the present lodge building, will be used as a dining room that will seat 500 guests at one time. This room will be divided at one end with a space for a twenty piece orchestra and on either side there will be a large cobblesone fireplace. This room will have the appearance of a large log cabin and all construction will be of logs. The division between the small dining booths on the sides will be made with logging chains. The light fixtures will be made from old circular saws hung from the ceiling with logging chains. There will be peavies and cross cut saws attached to the walls for decoration, while here and there will be an old birch bark canoe hung from the ceiling.

Opening off the main dining room and connecting to the main lodge building will be a very modern

kitchen, including the latest equipment with all the latest and modern equipment for the prompt and sanitary handling and preparation of food.

The second floor of the lodge building will contain 16 bedrooms, each with a private bath. The bathrooms will have built in tubs, tile floors and tile wainscoting and the most modern fixtures and equipment available at this time. This floor, as well as the first floor, is connected with the present lodge building by a covered passage way in which will be used on the second floor as writing room and on the first floor as a lounging room.

The present dining room in the old building will be converted into a lounging room and a large brick fireplace will be installed at the end of the room to give the room a cheerful appearance.

The grocery store, which is 62 feet long by 25 feet wide, will be entirely constructed of logs. It will be placed in the center of the house-keeping cottages where it will be a very attractive addition to that part of the grounds.

Captain Fawcett's own residence which also is entirely constructed of logs will have a living room open to the roof, showing the log construction not only in the side walls, but also supporting the roof. There will be five bedrooms and three bathrooms in the cabin together with a small dining alcove and a kitchen. Captain Fawcett will also have his private study in the cabin, where he will store his guns and all his personal trophies. This room he will use as a private office for the conducting of his personal business.

A power house will be built to house the new electric lighting equipment and the pump. This will be built away from the cottages and the lodge so there will be no disturbance from noise of any sort.

## RESCUERS PROBABLY TO BE SENT AFTER AMUNDSEN

(Continued from Page 1)

a lead that closed on him and he had to pull his planes on the ice. He may be waiting for it to open up again before taking off for home. I fully believe he is safe and will return."

## JACK KEARNS TO FINANCE EXPEDITION

Los Angeles, May 28. — Jack Kearns, famous prize ring impresario, announced today he had undertaken to finance Captain Haakon Hammer on an expedition to the North Pole to find Captain Amundsen and his party of polar explorers.

Captain Hammer flew to within 400 miles of the Arctic Pole two years ago on a similar expedition of relief for Amundsen.

The Danish explorer is here convalescing from eye trouble and has announced his determination to go to the rescue of his old friend and associate. He told the United Press he was considering Kearns' offer and that nothing would stop him from going to Amundsen's relief now but a lack of funds.

"I am going to send Captain Hammer to the North Pole to find Amundsen if he will accept my terms," declared Kearns. "He is the logical man to make the relief flight and I propose to see that he gets his planes and a crew organized immediately for the flying."

## BRAINERD SCHOOLS AID NEAR EAST

Achieve Most Helpful Results in Campaign by Contributing \$203.36

## GET APPRECIATIVE LETTER

Individual Tokens Received by Scholars, Special Present For High School

The Brainerd schools were stimulated in giving to the Near East Relief by the receiving of small rulers, sent out from the headquarters of the N. E. R. in Minneapolis.

The amounts given by the schools were as follows:

Washington, high school	\$ 64.26
Harrison building	48.50
Whittier building	31.10
Lincoln building	29.40
Lowell building	27.10

Riverside building 3.00

Total \$203.36

In a recent letter to F. A. Farrar, treasurer of the Brainerd fund for Near East Relief, Mr. Jackman, regional director, Minneapolis, expressed thanks to W. C. Cobb, superintendent of schools, also the teachers for their co-operation in this ruler campaign and the generous gift of the children.

A very pretty set of book-ends, made of sandalwood by the children of the Near East orphanages, was presented by Mr. Jackman to the Brainerd high school.

## MEMORIAL DAY PROGRAM GIVEN

Exercises at Evergreen Cemetery Will Open With the Assembly Call

### REV. F. ERRINGTON SPEAKER

Invocation by Rev. Father Walter Remmis, Memorial Day Proclamation by Albert Fox

The program which will be followed in the Memorial Day exercises at Evergreen cemetery on Saturday morning, is given herewith:

1. Assembly Call.

2. Music, Brainerd Municipal Band.

3. Invocation—Rev. Father Walter Remmis.

4. Memorial Day Proclamation—Albert Fox, Post Commander, G. A. R.

5. Lincoln's Gettysburg Address—High school student.

6. Music—High school chorus.

7. G. A. R. Ritual—Commander Fox and Adjutant J. A. Wilson.

8. Music—Male quartet.

9. Memorial address—Rev. Frederick Errington.

10. Music—Brainerd Boys band.

11. Decoration of the Cross.

12. Music.

13. Ceremony in honor of Navy dead—Led by Bert Orne.

14. Star Spangled Banner, band accompaniment.

15. Salute, firing squad.

16. Taps.

The wreaths used in decorating the cross, will be taken to the Mississippi river after the exercises, and deposited on the water as a final tribute to the sailor dead.

## BOY SCOUTS TO HOLD COURT OF HONOR

All Scouts who are prepared for advancement either in Second Class, First Class or Merit Badges, should present their names to Scout Headquarters not later than Saturday, May 30th, in order that preparation may be made for Court of Honor session to be held Tuesday, June 2nd, at the County Court House. This will be the last session of the local Court of Honor previous to summer camp.

### NOTICE

## GRADUATES AS TRAINED NURSE

Miss Andrene S. Gendron, Daughter of Mr. and Mrs. Geo. H. Gendron, Was Student at Rochester

### EXERCISES HELD FRIDAY

Invocation by Rev. G. P. Sheridan, Candidates For Diplomas Presented by Miss Irene R. English

George H. Gendron, 609 South Sixth street, has returned from Rochester, where he attended the commencement exercises of the Kahler Hospitals' school of nursing, held in the Methodist church of that city on last Friday evening. Mr. Gendron's daughter, Miss Andrene S. Gendron, was a member of this graduating class.

The program contained several names of interest to Brainerd people. Following the recessional by the orchestra, the invocation was offered by Rev. G. P. Sheridan, former pastor of the First Congregational Church of Brainerd. Dr. W. J. Mayo made an address to the class, and the commencement address, "Education and Service" was delivered by Dr. Albert Parker Fitch, professor of religious history, Carleton college.

The candidates for diplomas were presented by Miss Irene R. English, general director of nurses at the hospital, and a former Brainerd girl. The diplomas were distributed by Dr. M. S. Henderson, and Rev. H. G. Leonard pronounced the benediction. The musical portion of the program was furnished by the orchestra, the glee club and vocal solos by Miss Lou Nicoll.

There were 75 young ladies in the graduating class of 1925. Miss Gendron was the only one from Brainerd, but others from this locality included Miss Helen M. Kopp, of Aitkin, and Miss Ethel M. Olson, of Pequot. One graduate comes from Geneva, Switzerland, being Miss Marthe Louise Thevoz.

## MEMORIAL DAY PROGRAM GIVEN

Exercises at Evergreen Cemetery Will Open With the Assembly Call

### REV. F. ERRINGTON SPEAKER

Invocation by Rev. Father Walter Remmis, Memorial Day Proclamation by Albert Fox

The program which will be followed in the Memorial Day exercises at Evergreen cemetery on Saturday morning, is given herewith:

1. Assembly Call.

2. Music, Brainerd Municipal Band.

3. Invocation—Rev. Father Walter Remmis.

4. Memorial Day Proclamation—Albert Fox, Post Commander, G. A. R.

5. Lincoln's Gettysburg Address—High school student.

6. Music—High school chorus.

7. G. A. R. Ritual—Commander Fox and Adjutant J. A. Wilson.

8. Music—Male quartet.

9. Memorial address—Rev. Frederick Errington.

10. Music—Brainerd Boys band.

11. Decoration of the Cross.

12. Music.

13. Ceremony in honor of Navy dead—Led by Bert Orne.

14. Star Spangled Banner, band accompaniment.

15. Salute, firing squad.

16. Taps.

The wreaths used in decorating the cross, will be taken to the Mississippi river after the exercises, and deposited on the water as a final tribute to the sailor dead.

## BOY SCOUTS TO HOLD COURT OF HONOR

All Scouts who are prepared for advancement either in Second Class, First Class or Merit Badges, should present their names to Scout Headquarters not later than Saturday, May 30th, in order that preparation may be made for Court of Honor session to be held Tuesday, June 2nd, at the County Court House. This will be the last session of the local Court of Honor previous to summer camp.

## NOTICE

## EXERCISES HELD FRIDAY

Invocation by Rev. G. P. Sheridan, Candidates For Diplomas Presented by Miss Irene R. English

George H. Gendron, 609 South Sixth street, has returned from Rochester, where he attended the commencement exercises of the Kahler Hospitals' school of nursing, held in the Methodist church of that city on last Friday evening. Mr. Gendron's daughter, Miss Andrene S. Gendron, was a member of this graduating class.

The program contained several names of interest to Brainerd people. Following the recessional by the orchestra, the invocation was offered by Rev. G. P. Sheridan, former pastor of the First Congregational Church of Brainerd. Dr. W. J. Mayo made an address to the class, and the commencement address, "Education and Service" was delivered by Dr. Albert Parker Fitch, professor of religious history, Carleton college.

The candidates for diplomas were presented by Miss Irene R. English, general director of nurses at the hospital, and a former Brainerd girl. The diplomas were distributed by Dr. M. S. Henderson, and Rev. H. G. Leonard pronounced the benediction.

The musical portion of the program was furnished by the orchestra, the glee club and vocal solos by Miss Lou Nicoll.

There were 75 young ladies in the graduating class of 1925. Miss Gendron was the only one from Brainerd, but others from this locality included Miss Helen M. Kopp, of Aitkin, and Miss Ethel M. Olson, of Pequot. One graduate comes from Geneva, Switzerland, being Miss Marthe Louise Thevoz.

**POST OFFICE**

Closed Memorial Day. No delivery of mails, city or rural. Stamp and general delivery windows closed all day.

## WHAT'S THE MATTER WITH '25 PITCHERS?

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, May 28.—Fine early season pitching form shown by a number of veteran pitchers in the major leagues caused so much comment that observers started looking for reasons for what was considered to be an unusual condition. It is rather odd to be asked to explain why a veteran pitcher should not pitch at least as good as an inexperienced youngster, but there is a legend that old arms do not loosen up until they have been well boiled by the summer sun.

With the exception of Sammy Gray, the young sensation with the Philadelphia Athletics, practically all of the good early season pitching came from veterans such as Jack Scott, Walter Johnson, Art Nehf and others and it is likely that older stars will continue to shine because there have been so few good young pitchers developed in recent years.

Some exceptionally fine youngsters come out every spring, but they do not last. Emil Yde came up to the Pittsburgh Pirates last season and looked like one of the biggest finds in years, but he started out as a total bust this year and was of little assistance to the club.

Between the class of very young pitchers and very old ones there are a group that hardly can be classed as either such as Shaute, Donohue, Bentley, Wingard, Whitehill and Barnes. They are all good pitchers but they are not in the class with some of the older pitchers like Alexander, Scott, Nehf, Shocker or Pennock.

Three of the best pitchers in the International League, a Class AA circuit, came up to the majors this year and failed to live up to their pedigree. Connie Mack paid more than \$100,000 to the Baltimore club for Lefty Groves and he was so wild that he had to be taken out of the box in practically every one of his early starts.

## AMUSEMENTS

## Wild West Show Feature in New Hoot Gibson Film

Hoot Gibson stages thrills galore in a new brand of play, in "The Sawdust Trail," wherein he does Western riding tricks without being a cowboy, and alternates them with daring automobile rides that ordinarily have no place in a Western picture. As usual, he violates all conventions to make a series of brand-new thrills. The new picture, coming tonight and Friday to the Lyceum Theatre, is said to be the best Gibson feature up to date.

## Betty Parisian Dancer in "New Lives For Old"

Introducing the newest claimant for dancing fame—Betty Compson.

The beautiful film star stepped out of her usual roles during the filming of her current starring picture for Paramount, "New Lives for Old," and became for a few weeks a celebrated, talented Parisian dancer.

It sounds easy, but it wasn't. Miss Compson herself is the first to admit it.

In the story Theodore Kosloff plays a German spy against whom Betty pits her wits and cunning. There is a veiled warfare from beginning to end. It was rather incongruous to see them come from a tempestuous scene and calmly begin rehearsing the dance steps just out of range of the camera.

"New Lives for Old" will be shown at the New Park last time tonight.

## 2 PERFORMANCES

Lee Bros. Wild Animal Show to Exhibit at 2 P. M. and 8 P. M. in Brainerd, Saturday, May 30

Lee Bros. Wild Animal Exhibition surpasses anything of the kind ever attempted. From their immense herds of elephants they present two large groups in separate ring performances, the features of which must be seen to be appreciated. The huge beasts move with incredible speed and thoroughly enjoy the unnatural things they are called upon to do. They play at mimic war, dance dreamy waltzes, lively two-steps and stately minuets, humorously enact farcical skits, stand on their heads and balance their ponderous bodies with all the skill of human performers. They also play musical instruments with a marvelous result of tuneful tone.

Their trainer claims the elephant the most intelligent, faithful and useful of all wild animals, and avers with impressive solemnity that the monster beasts have a language, as well as degree of human understanding which he is able to translate, and thereby get into closer sympathy with his charges. The wonderful things they do at his suggestion give a color of probability to his claim. It is the sight of a lifetime to see these great herds of elephants in one big company.

The elephants are merely one of the big animal features. The most exciting is that of the trained lions, who do some wonderful feats, educated tigers in wonderful stunts, leopards who seem to act like cats, pumas, always fighting, but doing some wonderful feats, trained camels, a new and almost impossible feat, all kinds of domestic animals and a delightful spectacle with beautiful costumes, singing, dancing, and a most surprising array of trained animals of all descriptions. It will be unfortunate to miss this wonderful performance.

Lee Bros. Wild Animal show will exhibit in Brainerd on Saturday, May 30th giving two performances—at 2 and 8 p. m. Rain or shine.

## ELKS TEAM

WINS HANDILY  
FROM Y, 3 TO 1PITCHERS' DUEL BETWEEN VAN WALK AND PETERSON  
LAST NIGHT

## PETERSON STRUCK OUT 10, VAN WALK FANNED 8 AND WALKED 4

The Elks won from the Y. M. C. A. in a well played game last night, 3-1. It was the best game of the season so far, a pitchers' duel between Van Walk and Peterson. On strike-outs and walks Peterson had the edge, striking out ten and walking none, to Van Walk's eight strike-outs and four walks.

From the start the game was good to watch. The Y. M. C. A. scored their lone run in the first inning, when with one down, Orth singled, advanced to second, and scored on Swanson's single. This ended the scoring for the Y team. They had a good chance to score again in the seventh frame, when Ringer, batting for Carlson, drew a pass, and Thorildson was sent to run for him. Van Walk's touted habit of catching runners off base came into play, and he caught Thorildson standing up. Peterson was out, third to first, and Anderson singled, stole second and tried to steal third on a short passed ball, but Gaskill's recovery was too quick, and he caught him.

The Elks' first run came in the second. Steinfeldt, first up, punched out a one-base hit, McGarry got a base on Orth's error, and Van Walk singled, bringing Steinfeldt in. In the sixth inning they made their other two runs, when with one out, Imgrund singled, stole second and came home when Larson dropped Ziebell's fly to right. Ziebell scored a minute later on Stallman's single.

The feature of the game was a diving catch in left field by Steinfeldt, of Anderson's line drive. The ball was tagged for three bases, but Steinfeldt, running hard to his left, made a dive for the ball, rolled over once or twice, and came up with the ball secure.

The game was a pretty exhibition of pitching, both Van Walk and Peterson showing off to advantage. Van Walk whiffed three in a row in the sixth. Peterson struck out two men in each of four innings.

No more league games will be played this week, tonight's game being postponed on account of the Shops and All Star game tonight.

## Skinny Men

Gain 5 Pounds in 30 Days or Get Your Money Back

Doctors and good pharmacists know that Cod Liver Oil is full of vitamins that make flesh, create appetite, builds up the power to resist disease and puts good solid flesh on skinny men and women.

But it's horrible tasting stuff and every day fewer people are taking it for doctors are prescribing and people are fast learning that they can get better results with McCoy's Cod Liver Oil Compound Tablets, which H. P. Dunn, Johnson's Pharmacy, Economy Drug Co. and druggists all over the country are having a tremendous demand for.

One woman gained 10 pounds in 22 days and if any skinny man or woman can't put on 5 pounds in 30 days, your druggists will gladly refund the purchase price.

Be sure and get McCoy's, the original and genuine Cod Liver Oil Compound Tablets—60 tablets—60 cents.

HERE IS A GAME  
BOMBARDIER SHINES IN

Westward Ho, England, May 28.—Bombardier Wells has finally found a game where he can go more than one round. The former British heavyweight champion passed through the second round of the British amateur golf championship here Tuesday, when he defeated Capt. W. H. Richards 5 and 4.

Wells, driving and putting well, had only two over fours for the first 14 holes played.

## Iowa Golfers Win

Evanston, Ill., May 28.—The Hawk-eye golf team blanked the Purple nicker artists 10 to 0. As a result of their win over the Purple and Indiana the Iowans jumped to second place in the big ten column.

## ROTARY CLUB

SILVER CUP  
PRESENTATION

## GOES TO WINNING SCHOOL IN GRADE SCHOOL TRACK MEET

## FULL TABULATION OF RACE RESULTS IN TOMORROW'S DISPATCH

Final events in the Grade School Track and Field Meet were run off this afternoon at 3:15. Six events remained to be completed, the 220 yard dashes in three age groups, half mile relay, half mile run and broad jump. The full tabulation of results will be given in tomorrow's Dispatch.

At 5 o'clock this afternoon, the Rotary Club cup is being presented to the winning school. At this writing the winner has not yet been determined, and the events remaining on the schedule will be needed to decide the champion.

The Rotary Club has taken this means of bringing before the people the value of outdoor sports for children. A fourteen inch silver cup, engraved with the winner's name, is presented to the school making the highest number of points. The school winning the cup this year will hold it for one year, or until the next track meet. To gain permanent possession of the cup, a school must win it twice, not necessarily twice in succession, however.

The public is invited to attend the presentation, which will take place from the steps of the Y. M. C. A. this afternoon at 5. Ribbons for first, second and third places will also be given to the point winners.

## Arie Wins Trapshoot

Chicago, May 27.—Mark Arie of Champaign, Ill., and A. W. Olney of West Allis, Wis., tied for first place Tuesday in the western amateur doubles champion of the Great Western trapshooting tournament with 184 targets out of 200 in four events of 25 pairs. In the shootoff to determine first place Arie won with 47 to 46.

SHE WAS  
AFRAID  
TO SLEEP

"For a year I was afraid to sleep because gas (from stomach) collected around my heart. Now I take Adlerika once a week and have not been bothered since," testified Mrs. E. Cole. Adlerika removes gas in TEN minutes and brings out old waste matter you never thought was in your system. It is such an excellent intestinal evacuant that it is wonderful for constipation and allied stomach trouble. Stops that full, bloated feeling and makes you happy and cheerful. No matter what you have tried the REAL action of Adlerika will surprise you. Johnson's Pharmacy and Economy Drug Co.—Adv.

## WHAT'S THE MATTER WITH '25 PITCHERS?

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, May 28.—Fine early season pitching form shown by a number of veteran pitchers in the major leagues caused so much comment that observers started looking for reasons for what was considered to be an unusual condition. It is rather odd to be asked to explain why a veteran pitcher should not pitch at least as good as an inexperienced youngster, but there is a legend that old arms do not loosen up until they have been well boiled by the summer sun.

With the exception of Sammy Gray, the young sensation with the Philadelphia Athletics, practically all of the good early season pitching came from veterans such as Jack Scott, Walter Johnson, Art Nehf and others and it is likely that older stars will continue to shine because there have been so few good young pitchers developed in recent years.

Some exceptionally fine youngsters come out every spring, but they do not last. Emil Yde came up to the Pittsburgh Pirates last season and looked like one of the biggest finds in years, but he started out as a total bust this year and was of little assistance to the club.

Between the class of very young pitchers and very old ones there are a group that hardly can be classed as either such as Shaute, Donohue, Bentley, Wingard, Whitehill and Barnes. They are all good pitchers but they are not in the class with some of the older pitchers like Alexander, Scott, Nehf, Shocker or Penneck.

Three of the best pitchers in the International League, a Class AA circuit, came up to the majors this year and failed to live up to their pedigree. Connie Mack paid more than \$100,000 to the Baltimore club for Lefty Groves and he was so wild that he had to be taken out of the box in practically every one of his early starts.

## AMUSEMENTS

## Wild West Show Feature in New Hoot Gibson Film

Hoot Gibson stages thrills galore in a new brand of play, in "The Sawdust Trail," wherein he does Western riding tricks without being a cowboy, and alternates them with daring automobile rides that ordinarily have no place in a Western picture. As usual, he violates all conventions to make a series of brand-new thrills. The new picture, coming tonight and Friday to the Lyceum Theatre, is said to be the best Gibson feature up to date.

## Betty Parisian Dancer in "New Lives For Old"

Introducing the newest claimant for dancing fame—Betty Compson. The beautiful film star stepped out of her usual roles during the filming of her current starring picture for Paramount, "New Lives For Old," and became for a few weeks a celebrated, talented Parisian dancer.

It sounds easy, but it wasn't. Miss Compson herself is the first to admit it. In the story Theodore Kosloff plays a German spy against whom Betty pits her wits and cunning. There is a veiled warfare from beginning to end. It was rather incongruous to see them come from a tempestuous scene and calmly begin rehearsing the dance steps just out of range of the camera.

"New Lives For Old" will be shown at the New Park last time tonight.

## 2 PERFORMANCES

## Lee Bros. Wild Animal Show to Exhibit at 2 P. M. and 8 P. M. in Brainerd, Saturday, May 30

Lee Bros. Wild Animal Exhibition surpasses anything of the kind ever attempted. From their immense herds of elephants they present two large groups in separate ring performances, the features of which must be seen to be appreciated. The huge beasts move with incredible speed and thoroughly enjoy the unnatural things they are called upon to do. They play at mimic war, dance dreamy waltzes, lively two-steps and stately minuets, humorously enact farcical skits, stand on their heads and balance their ponderous bodies with all the skill of human performers. They also play musical instruments with a marvelous result of tuneful tone.

Their trainer claims the elephant the most intelligent, faithful and useful of all wild animals, and avers with impressive solemnity that the monster beasts have a language, as well as degree of human understanding which he is able to translate, and thereby get into closer sympathy with his charges. The wonderful things they do at his suggestion give a color of probability to his claim. It is the sight of a lifetime to see these great herds of elephants in one big company.

The elephants are merely one of the big animal features. The most exciting is that of the trained lions, who do some wonderful feats, educated tigers in wonderful stunts, leopards who seem to act like cats, pumas, always fighting, but doing some wonderful feats, trained camels, a new and almost impossible feat, all kinds of domestic animals and a delightful spectacle with beautiful costumes, singing, dancing, and a most surprising array of trained animals of all descriptions. It will be unfortunate to miss this wonderful performance.

Lee Bros. Wild Animal show will exhibit in Brainerd on Saturday, May 30th giving two performances—at 2 and 8 p. m. Rain or shine.

## ELKS TEAM

## WINS HANDILY

## FROM Y, 3 TO 1

## PITCHERS' DUEL BETWEEN VAN WALK AND PETERSON LAST NIGHT

## PETERSON STRUCK OUT 10, VAN WALK FANNED 8 AND WALKED 4

The Elks won from the Y. M. C. A. in a well played game last night, 3-1. It was the best game of the season so far, a pitchers' duel between Van Walk and Peterson. On strike-outs and walks Peterson had the edge, striking out ten and walking none, to Van Walk's eight strike-outs and four walks.

From the start the game was good to watch. The Y. M. C. A. scored their lone run in the first inning, when with one down, Orth singled, advanced to second, and scored on Swanson's single. This ended the scoring for the Y team. They had a good chance to score again in the seventh frame, when Ringer, batting for Carlson, drew a pass, and Thorkildson was sent to run for him. Van Walk's touted habit of catching runners off base came into play, and he caught Thorkildson standing up. Peterson was out, third to first, and Anderson singled, stole second and tried to steal third on a short passed ball, but Gaskill's recovery was too quick, and he caught him.

The Elks' first run came in the second. Steinfeldt, first up, punched out a one-base hit, McGarry got a base on Orth's error, and Van Walk singled, bringing Steinfeldt in. In the sixth inning they made their other two runs, when with one out, Imgrund singled, stole second and came home when Larson dropped Ziebell's fly to right. Ziebell scored a minute later on Stallman's single.

The feature of the game was a diving catch in left field by Steinfeldt, of Anderson's line drive. The ball was tagged for three bases, but Steinfeldt, running hard to his left, made a dive for the ball, rolled over once or twice, and came up with the ball secure.

The game was a pretty exhibition of pitching, both Van Walk and Peterson showing off to advantage. Van Walk whiffed three in a row in the sixth. Peterson struck out two men in each of four innings.

No more league games will be played this week, tonight's game being postponed on account of "the Shops and All Star game tonight."

## People Must Have Joint Ease Says Druggist

"You can't stop people from buying Joint-Ease for sore throat, pleurisy, backache and cold in chest," writes one of our druggist friends. "They say it's the best ever."

We know that, of course, but please remember that Joint-Ease is for stiff, swollen, painful joints, whether rheumatic or not, and its tremendous sale for that purpose proves that it is the one joint remedy that gets the most satisfying results.

A tube costs 60 cents at Johnson's Pharmacy, Economy Drug Co. and druggists everywhere. Just rub it on and in a few seconds it disappears through skin and flesh right down to the ligaments and tendons of the joints—then relief follows instantly.

Always remember, when Joint-Ease gets in joint agony gets out—quick.—Advt.

## HERE IS A GAME

## BOMBARDIER SHINES IN

Westward Ho, England, May 28.—Bombardier Wells has finally found a game where he can go more than one round. The former British heavyweight champion passed through the second round of the British amateur golf championship here Tuesday, when he defeated Capt. W. H. Richards 5 and 4.

Wells, driving and putting well, had only two over fours for the first 14 holes played.

## Iowa Golfers Win

Evanston, Ill., May 28.—The Hawk-eye golf team blanked the Purple nighthawkists 10 to 0. As a result of their win over the Purple and Indiana the Iowans jumped to second place in the big ten column.

## GOES TO WINNING SCHOOL IN GRADE SCHOOL TRACK MEET

## FULL TABULATION OF RACE RESULTS IN TOMORROW'S DISPATCH

Final events in the Grade School Track and Field Meet were run off this afternoon at 3:15. Six events remained to be completed, the 220 yard dashes in three age groups, half mile relay, half mile run and broad jump. The full tabulation of results will be given in tomorrow's Dispatch.

At 5 o'clock this afternoon, the Rotary Club cup is being presented to the winning school. At this writing the winner has not yet been determined, and the events remaining on the schedule will be needed to decide the champion.

The Rotary Club has taken this means of bringing before the people the value of outdoor sports for children. A fourteen inch silver cup, engraved with the winner's name, is presented to the school making the highest number of points. The school winning the cup this year will hold it for one year, or until the next track meet. To gain permanent possession of the cup, a school must win it twice, not necessarily twice in succession, however.

The public is invited to attend the presentation, which will take place from the steps of the Y. M. C. A. this afternoon at 5. Ribbons for first, second and third places will also be given to the point winners.
